## Why Choose NeuralNet Interactive?

NeuralNet Interactive is Saskatoon's Apple Specialist. Since 2001, we have brought our experience, expertise, and passion for Apple products to Saskatoon and area and helped countless families, businesses, and individuals unleash their potential on a Mac. Since then NeuralNet has broadened its scope to provide a wide array of exciting lifestyle-enriching products.

Our lives are about experiences. So much of our time is spent doing mundane things – waiting in line, sitting in traffic, watching paint dry. We want your experience at NeuralNet to be memorable. Not just a purchase – the start of a relationship. We are a luxury retailer with a passion for hand-picked, high-quality products meant to make those moments in your life a little bit better.

That's what life's about: stories, experiences, connections with people. Take time. Have fun. Enjoy the moment.

# Sound for the Senses

Bang & Olufsen was founded in 1925 in Struer, Denmark, by two enterprising young engineers, Peter Bang and Svend Olufsen. They created the business that was to become an international design icon and a global symbol of audio-visual excellence. Bang & Olufsen products are sold mainly by an extensive, independent retail network across more than 100 countries.

Today Bang & Olufsen is world renowned for its distinctive range of quality televisions, music systems and high-performance loudspeakers; products that combine technological excellence with emotional appeal in a sensational design language. They pride themselves on creating magical experiences that break barriers and set the stage for a symphony of entertainment. These timeless pieces also have a long life and many households throughout the world have perfectly-working Bang & Olufsen products that are 20-30 years old.

Bang & Olufsen also strives to design environmentally friendly products, and believe that consideration for environmentally friendly qualities is a must – aspects customers take for granted and expect to have been appropriately covered. All products are rigorously tested and designed to surpass the stringent self-imposed environmental standards.

BANG & OLUFSEN

# More than Just a Computer Store

We provide Customer-friendly, Apple authorized sales and services. We all share a love for the Macintosh platform, superior technical expertise & a commitment to quality customer service.

NeuralNet Interactive assists retail, SMB, and enterprise clients. We focus on providing superior service before, during, and after the sale. Think of us as your partner in technology, a creative solutions provider who is motivated to build long-term relationships. When you need Mac help, call your local Apple Specialist.

Since 2001, NeuralNet Interactive has been Saskatoon's Apple Specialist. We see the difference that an Apple device provides. Apple products provide a level of user satisfaction and commitment to quality and design that put them above the rest. At NeuralNet, we provide that same level of satisfaction and dedication with the service we provide to our customers.

Our staff of product specialists and service technicians ensure that everyone receives the best service. Every customer is matched with the best machine for their needs. We don't just sell computers. We help you have the best possible experience with the best products in the world.

# Digital Technology, Classic at Heart

Leica is German engineering at its best, and the Leica ideal is an integral part of the culture of seeing. Leica has a long history of focusing on perception and has developed innovative instruments that offer a unique experience. The result is a renowned series of cameras and lenses, and a superb range of sport optics including high-aperture and laser rangefinder binoculars, and spotting scopes.

These products expand the natural limits of perception and open up new dimensions for human vision and insight. Leica quality is in a class by itself - both in analogue and digital capture modes. Top-quality systems with intuitive controls provide the best picture results and offer unparalleled creative freedom. In this way, Leica helps transform vision into personal creative fulfilment.

Ultimately, the lenses are chiefly responsible for establishing the legend and high ideals of the Leica brand. They are all precision crafted masterpieces - practical, compact, ergonomic and cutting-edge for ultimate analogue and digital photography. Capturing meaningful moments becomes easy. Pictures taken with Leica lenses not only highlight the quality of their contrast, resolution and beautiful pictorial rendition, but also demonstrate the capabilities of Leica products with regard to design, performance, and the ability to capture natural expression.

# Leica

*Leica quality is in a class by itself - both in analog and digital capture modes. Visit with one of our specialists to learn more about this unique product!*

# Grill, Oven, or Smoker? **Yes.**

**Grill** | Sear the perfect steaks, pork chops or burgers on the EGG. High temperature “steak house” grilling – even at 750° F / 400° C – is quick and easy! Using the two dampers for accurate control, you can lower the heat to a more moderate temperature for other grilled foods. Fish and seafood turn out moist and tender with a flavour-packed crust unmatched by other grills.

**Oven** | Using the indirect cooking method with a convEGGtor, the Big Green Egg bakes bread, pizza, casseroles, cobblers and pies better than your kitchen oven ... you may never cook indoors again! The Big Green Egg retains heat and moisture so well that foods don't dry out! Poultry, lamb, beef and vegetables are naturally tastier because the juices and flavours stay locked inside.

**Smoker** | The insulating ceramics of the Big Green Egg allow you to precisely control the temperature even at low heat. A controllable 200 to 350°F / 93 to 177°C gives succulent results with turkey, ham, lamb, chicken, ribs or any of your favourite cuts, infusing them with the aromatic wood smoke flavour. Want to slow cook at low heat for sixteen to eighteen hours ... no problem!

**Big Green Egg**  
The Ultimate Cooking Experience™ 

*A grill, oven, and smoker in one?! Who could ask for more. The Big Green Egg provides the Ultimate Cooking Experience in any weather condition.*
